

Class 7

Part : 3D Designing

Chapter 1 : Introduction to 3D Designing & 3D Printer

Pre-requisites :

- 1. One should be knowledgeable about 3D modeling and printing.**
- 2. Understanding of the vast applications of 3D Printing**
- 3. Brief understanding of 3D designing software like CAD and Tindercad**
- 4. Knowledge of the slicing software**
- 5. Hands-on practice on simple models**
